1. Connection between the harbor of Sulina and the interior of the country is made exclusively by river boats of the Sovromtransport (SRT). The farthest inland stop is at Braila.
2. There is a navigable canal between the harbor and the sea, which is 2,800 meters long and approximately four meters deep. Piloting services are carried out by DDM pilots. The canal is currently under repair.
3. The navy yard harbors only the dredging boats which are being used to dredge the canal.
4. The length of the main pier is approximately 700 meters.
5. The depot of river equipment and tools is located in the building of the Military Marine. Canteens and workshops are located in the DDM navy yard (Office of the Maritime Danube).
6. The Sulina lighthouse is the landmark which can be seen from the sea.
7. The entire harbor has been declared a forbidden zone, including the beach in order to prevent escape attempts. The harbor is guarded by Military Marine guards. The Militia Harbor and Water Communications (PCA) have the duty of policing the harbor and the offices of the harbor authorities.
8. See attached sketch of Harbor of Sulina.
